I have read and have been following reports of the Microsoft case in news papers and am concerned that this is turning into a witch hunt agains't Microsoft, the settlement was by far more than fair, this looks like to me to be another ATT case which broke up a great company and no one was the better for it. Mircrosoft has done a great deal of good and I believe that this suit should end for the good of the whole country, I could go on but I believe you now know my feelings and concerns. thank you for allowing me to share thoses concerns.
